Model 1 - Performance

ROI for 1 ATM

Simulation based on conservative assumptions

Base Assumptions (1 operator)

Annual gross revenue:	**$25,172**
Annual expenses:	**$6,207**
Operating Result (franchisee share):	**$12,731/year**

Investment

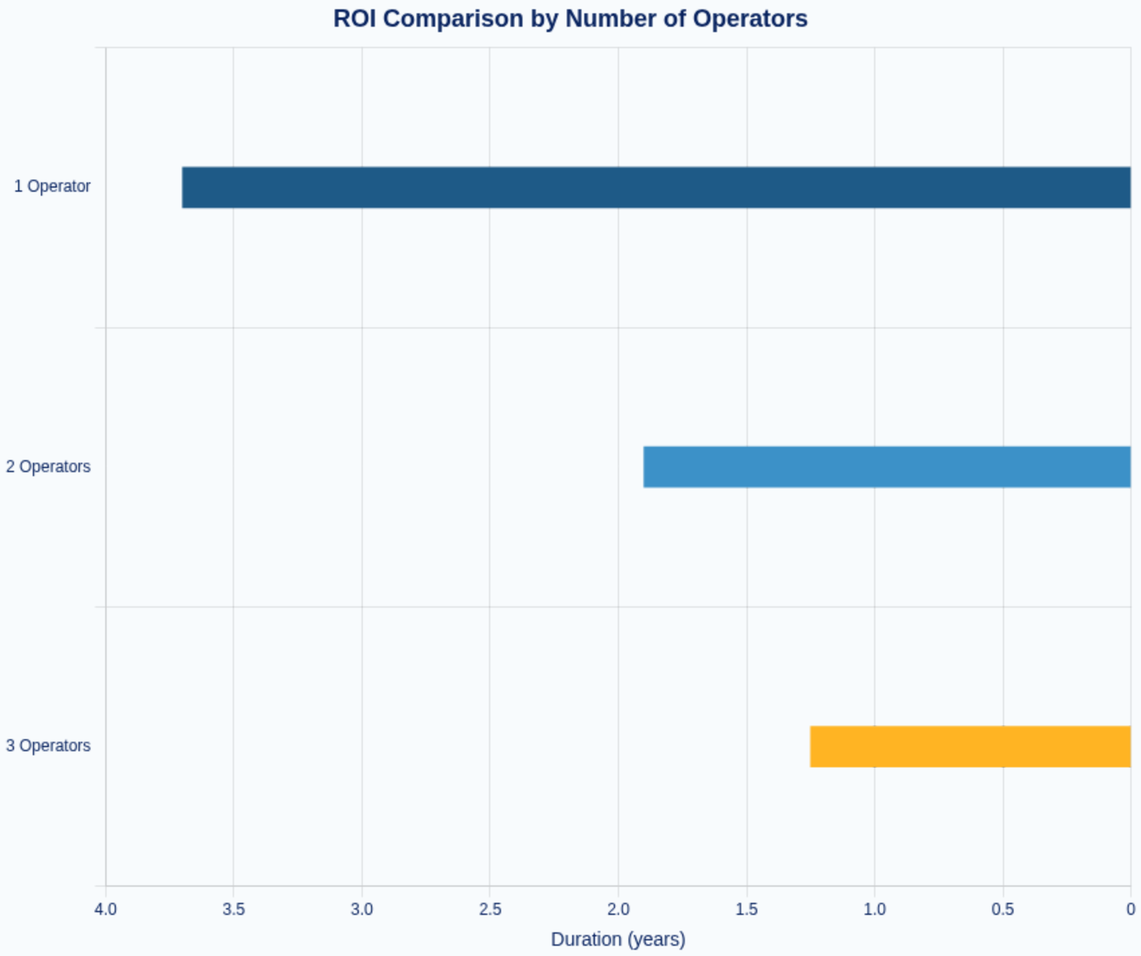

CAPEX:	**$38,966**
Working capital:	**$8,621**
Total:	**$47,586**

Return on Investment

1 Operator (MTN)
$12,759/year
3.7 years

2 Operators
$25,517/year
1.9 years

3 Operators
$38,276/year
1.25 years

ROI is calculated with 1 operator (MTN). Adding operators (Orange, Wave, etc.) multiplies revenue and reduces payback time.
